Soviet Principles
By V.I. Lenin

I. Fundamentals – Always the fundamentals

Just the fundamentals all day – fundamentals of economics, and all its fundamentals then.

II. Developments of Sedimental Logic – Logics of small things, middle things and Capital things

Imagine the nature of things, and the word things, just then sedimentalise it.

III. Results and Prospects – Trotskyist Principles Included which are –

Diffusion, collection, which then fuses and ruptures – sweeping accounts of all things.

IV. Leninism – Marxism-Leninism in fact

Collation, organisation and intervention of this fundamental sedimental and diffused results and prospects.
